

Safety Programs

NOTE: The “**Accident Prevention and Safety Management Program**” prepared by *SafetyWISE* is structured to exceed the requirements of the OSHA guidelines for a safety management program. Implementation of a safety program which follows the OSHA guidelines may qualify the client for OSHA's "Good Faith Effort" 25% reduction in OSHA penalties. It includes documentation based on OSHA's "Four-Point Workplace Program" concerning:

- Management commitment and employee participation,
- Work site analysis,
- Hazard prevention and control, and
- Training for employees, supervisors and managers.

SAFETY PROGRAMS
